

KVERNELAND OPTIMA V seeder machine

Brand:: KVERNELAND

The Optima V is the perfect seed drill for farmers and contractors who need a machine with various row widths. With the Optima V, the row width is ready in next to no time which ensures a speedy response on changing requirements. Your benefit: a high level of flexibility and less time waste.

The Advantages:

Maximum flexibility with variable row width

New vacuum air system for improved airflow increasing the seed spacing accuracy

Headstock is made of round tubes saving weight and increasing the stiffness

Optima V can be equipped with a 1000 l fertiliser hopper or front hopper solution as an option

Microgranular applicator is also available

In combination with iXtra LiFe the application of liquid fertiliser during seeding is possible, see iXtra LiFe.

All Optima V are electric driven and compatible with GEOSEED

Working width (m)	2.7-4.8	3.25-4.8	2.64-4.4
Number of rows	6	6+1	8
Row width (cm)	45-80	75+80 (6 rows) 45-65 (7 rows)	33-55
