

KVERNELAND CLC pro Classic

Brand:: KVERNELAND

Stubble Cultivator CLC pro

The CLC pro has been especially designed to work with the most powerful tractors. With 240HP maximum for 3.00m and up to 350HP for the 5.00m folding model, the CLC has become the benchmark regarding admissible power. It can, therefore, be combined with any type of roller and accessories which makes it extremely versatile. This quality to absorb the strongest forces also ensures a very long durability.

The CLC range can be equipped with two types of tines and a wide selection of shares. According to the operation requested and the type of soil, the large choice of following implements allows to carry out all sorts of cultivation: from stubble cultivation at 5cm to deep loosening at 30cm working depth.

The great versatility of the CLC pro makes it the ideal implement to meet all your requirements.

The Advantages:

High Horse power capacity to cope with all conditions and tractor sizes from 90 to 350 hp

Universal Cultivator from 3.0 to 5.0m, working 5 to 30cm deep

3 bar frame for optimum mixing and blockage free operation

Unique leg design vibrating for intensive effect in the soil but low fuel consumption

Wide choice of shares, rear rollers and levelling equipment

Intensive mixing of the residues

Seedbed finish possible
