

## **KVERNELAND iXter B**

Brand:: KVERNELAND

The Power of Technology

The Kverneland iXter B mounted sprayer is the fruit of years of research and development in close collaboration with farmers: this is today the most advanced mounted sprayer range with focus on user friendliness and environmental protection. The iXter B range is available with four different tank volumes from 1000 up to 1800 litres and two boom alternatives (HOSA, HC) from 15 to 30m. Pumps are available with capacities of 150, 200 and 260 l/min. Liquid fertiliser resistant and capable of running dry without damage. Due to the Easy Hitch quick hitch, the gravity point of the sprayer is extremely close to the tractor for a maximum weight transfer. However, the hitching operation remains quick and easy. High tech features like iXclean, IsoMatch Tellus PRO, IsoMatch Tellus GO, IsoMatch GEOCONTROL, Boom Guide and a lot more features are available for more operator comfort.

The Advantages:

HC steel booms or HOSA aluminium spray boom available

Fully integrated concept, including Easy Set control panel

ISOBUS or non ISOBUS compatible regulations systems

iXclean: every litre counts!

Possible in combination with IsoMatch GEOCONTROL

Possible in combination with the iXtra front tank
