VICON Andex 323-353-394-424T-434-474T Single Rotor Rakes

Brand:: VICON

Compact Single Rotor Rakes

Vicon offers several compact single rotor rakes, designed for use on low horsepower tractors, but which still deliver considerable working width. Vicon single rotor rakes offer working widths of 3.2-4.7m. With the option of pivoting, fixed three-point linkage mounting and a trailed version, there is a model to suit all needs. All rakes (except Andex 424T) have mechanical height adjustment via a crank, with the possibility of adjusting to the individual field conditions.

The Advantages:

Compact and light design that can be operated by smaller tractors.

CompactLine gearbox with cam discs and tine arm bearing running permanently in oil.

Curved tine arms for cleaner raking performance and better swath formation.

High number of options are available, such as tandem axles, oscillation dampers and a third wheel.
