

KVERNELAND PG - RG

Brand:: KVERNELAND

Easy ploughing right out to the field edge

The PG / RG models are Kvernelands first center-mounted wheel semi-mounted ploughs to be fitted with the unique Kverneland Vari-Width® system, for hydraulic on-the-move working width adjustment.

The advantages:

unsurpassed levels of performance

well-known Kverneland good stability in work and in transport

tight turning circle for narrow headlands

able to plough right up to field boundaries, trees, field obstructions...

operational simplicity

maximise output with the Vari-width® system and decrease the total fuel consumption

unrivalled Kverneland Auto-reset system for PG, non stop ploughing. No maintenance.
Shearbold protections for RG

wide range of accessories

5 to 8 furrow ploughs
